[Angie Stone]

Take a little love of money that u keep on

I know it's time for u to settle down
Stop foolin around
You keep searching but u don't know
Which corner found,
And telling u life is hard and history
And every move u make is just gamble
So leave your inambitions behind
And give me your love to handle

[1] - Take a bit of my love
My lovin' will give u something
Come on into my life
My lovin' will give u something

I hope u've been bad to give this love a drag
Yes I do, cause I've been
Give a little my everything
On this u can rely

[Repeat 1]

I give u everything

[2] - Take a little love of money that u keep on
My lovin' will give u something
Take a little love of money that u keep on
My lovin' will give u something

[Repeat 1 & 2 until fade]
