I can't believe it took so long  
For me to see you what I want  
Everytime I turn around  
You were right there holding me down  
Never taken in for granted

When you're no needing space  
Oh there was no hesitation  
When I needed time when you gave me conversation  
When I needed love you'd hold on to me tightly  
That's when I realized you are all I need

You've been right in front of, right in front of, right  
In front of me  
Hold on to me right in front I swear I wonder what took  
Me so long to see  
So my time got wasted looking for a lover all the wrong  
Places  
You've been right in front of, right in front of, right  
In front of me

It's time for me to do with you  
All the things that lovers do  
Listen hold you tight and makes me love all through the  
Night  
Baby we could catch up on some lost time

I never saw myself as your lady but now I'm your baby  
Strap I ain't never gonna leave you  
You've been too good to me  
And with you I'm complete

When you're no needing space  
Oh there was no hesitation  
When I needed time when you gave me conversation  
When I needed love you'd hold on so tightly  
That's when I realized you are all I need

You've been right in front of, right in front of, right  
In front of me  
Hold on to me right in front I swear I wonder what took

Me so long to see  
So my time got wasted looking for a lover all the wrong  
Places  
You've been right in front of, right in front of, right  
In front of me

You've been right in front of, right in front of, right  
In front of me  
Hold on to me right in front I swear I wonder what took  
Me so long to see  
So my time got wasted looking for a lover all the wrong  
Places  
You've been right in front of, right in front of, right  
In front of me
