VERSE 1

Funny how the ones who use to make you laugh slipped
away so fast
Now their in your past
Wondering bout what you could have done
It will make you think sometimes
Tomorrow never promised so best prepare
Never know when your creator is going call you there
Shake it out, work it out, if you give a damn
And just think sometimes

CHORUS

Cuz everday you got breath to pray
Oughta thank the lord that he made a way
For you to wake up this morning watch the sun come up
Best believe somebody didn't have your luck
Don't take for granted that it
cant be you
You still got the whole day to get through
If you make it in count your blessing then
Get tomorrow morning do it all again
The rule of life can make think sometimes
Cuz life can make you think sometimes
Life can make you think sometimes
Life can make you think sometimes

VERSE 2

You leaning on your car door flexing like your hard
core
Trying make everybody think that you got much more
Better recognize in the twinkling of an eye it could be
all gone
Your spending too much energy on the negativity
Gotta stop your pulling bee
Cant you see your draining me
That aint the way to live

CHORUS

Cuz everday you got breath to pray
Oughta thank the lord that he made a way

For you wake up this morning watch the sun come up

Best believe somebody didn't have your luck
Don't take for granted that it can't be you
You still got the whole day to get through
If you make it in count your blessing then
Get up tomorrow morning do it all again
The rule of life can make think sometimes
Cuz life can make you think sometimes
Life can make you think sometimes
Life can make you think sometimes

VERSE 3

Remember Billy bags
Always walking with a swag
Gave from his heart cuz that's all he ever had
Set him up, now he's gone bless his heart
It will make you think sometimes

Ten years on lock down from your family
Yet your no snitch cause it loyalty
That don't make no kind of sense to me

CHORUS

everyday you got breath to pray
Oughta thank the lord that he made a way
For you get up this morning watch the sun come up
Best believe somebody didn't have your luck
Don't take for granted that it can't be you
You still got the whole day to get through
If you make it in count your blessing then
Get up tomorrow morning do it all again
The rule of life can make think sometimes
Cuz life can make you think sometimes
Life can make you think sometimes
Life can make you think sometimes
