VERSE 1

what a surprise
I thought I never hear from you again (you left me)
with tears in my eyes
when you told that you didn't want this anymore
your action spoke louder than words
your silence I heard
the only thing worse is hearing you now
plant your seeds of doubt
when the love I found
is on solid ground

CHORUS

why is it (whooo)
now that I'm in love
and found someone now you want me
the way you know I use to want you
but it's too late because we're through
why is it
someone else had to love me
for you see all that I could be
this love for me has new meaning
and when you find it you never ever let it go

VERSE 2

now that things good
you telling me you could
be understanding of the things you shoulda
understood
sorry but I'm not who you knew when you broke my
heart into
your action spoke louder than words
your silence I heard
the only thing worse is hearing you now
plant your seeds of doubt
when the love I found
is on solid ground

CHORUS

why is it (oh yeaah)
now that I'm in love
and found someone now you want me

the way you know I use to want you
but it's too late because we're through
why is it
someone else had to love me
for you see all that I could be
this love for me has new meaning
and when you find it you never ever let it go

BRIDGE

don't want to remember all the pain you caused
don't want to think about how i gave you my all (gave
you my heart)
all i gave of me were things you asked me - but -
wasn't enough
don't want disappoint you but don't waste your time
cuz
love's got hold on my heart-body- soul - and mind
there's no need call me anymore
if you are looking for - the love we had don't live here
any more

CHORUS

why is it
now that I'm in love
and found someone now you want me
the way you know I use to want you
but it's too late because we're through
why is it
someone else had to love me
for you see all that I could be
this love for me has new meaning
and when you find it you never ever let it go

baby I'm yeah, said I'm good yeah
hope you find somebody to love you like i did
somebody who completes you ..yeah yeah
