You went away with the worlds 'I will get back soon'
You was be my side in all the things that I can
remember, but it's over.

After all this that that we wasn't together, I have to
say...

[Chorus]
Now I need to see you again,
Tell you all the things I made
While you wasn't here, with me.
Now I need to give you a hug
And that we can spend
Much time together.

I know the reasons, I know that all
But I don't know why
The time was so fast.

It isn't de same without you here,
Now the minuts are hours,
And the days are years.

[Chorus]
Now I need to heard your voice,
Now I need to stay with you,
Now I need you here,
Now I need you.
