Whaddya Say? - Hey!
'cause we don't back you anyway
Whaddya Know? - No!
You're just an oil pumping hoe.
I want to take - Take!
You're selfish lies then punch your face
Stuffed in my trunk - No!
You'll never kill the human race!

Well I can't believe
That you're still standing
You lie when you say
You're for your countrymen
But all for not
Instead your grandpa worked for Hitler
Now go smoke more crack
'cause we're stealing our country back.
Whaddya Say? Hey!
We'll never play the games you play
Whaddya Know? No!
When all your daughters snort the coke
And you bombed New York - Hey
What's 3000 people anyway?
You so fucking lame - No!
I know your dad killed JFK!

Well I can't believe
That you're still standing
I'll die before
I live to back republicans
So now go talk your shit
Too bad your mother looks like Lincoln
And behind your back
We're gonna kick your fucking ass!
