When the smoke clears from your head.  
Thos painful memories, of what you did.  
I won't take the blame  
You never listened anyway  
You broke my trust; I want your blood.

Now you stumble through the haze  
You steal some bread for food, whatever it takes.  
Don't think before you speak-Social anxiety  
No Mercy. No Mercy on You!

I'd hate to live with your complaints  
Build up the walls so high, you're wearing thin now  
Some price to just escape

What about the plans you made?  
A short story of a broken man!

Now your wasted everyday  
Paranoia's got you, now they're out to get you  
God Bless this mess you've made  
A shot in the dark again  
No Mercy. No Mercy on You!

You want to change your life and wish for better days  
Turn back the clock again and everything's okay  
You won't be satisfied unless you have it all  
Actions are demoralized and I'm waiting for you to  
fall...
