I'm Calling

When I was a little girl
I called for you
Come and save me from this
Wicked world I'm born into!
Lets play a game of hide and seek
I want my prince to rescue me
From the evil lurking at my door
My destiny, my fantasy
I'm calling, I'm calling
Was tempted by a mystery
I called to you, only for you
My dreams are all for me
He'll move the sun and stars, no fallacy
I'm dauntless when I'm with you
Childlike dreaming, I call for you!

When I'm all alone
A damsel in distress
He'll come and save me from this
Wicked world I'm born into!
He rides the night, defeats the storm
We'll sneak away, by early dawn
To his kingdom in the sky!
My destiny, my fantasy
I'm calling, I'm calling
Was tempted by a mystery
I called to you, only for you
My dreams are all for me
He'll move the sun and stars, no fallacy
I'm dauntless, when I'm with you
Childlike dreaming, I call for you!
