Behold the seething nightskies' glazed ornaments
alight
When the aurean reflections descend into recess
From the cobwebony forest fog, neon-eyed shadows
transpire
To inhale the scent of eclipse at the climax of the solar
absence

I cast myself into serenity
Imbued with such profanity
Which the reign of the chaosborn matter holds
Blessed with cold nocturnal bliss
I let the colors of midnight unfold

Harsh pestiferous winds sing glorious rhymes
Like a death-written poetry that through the blackness
resounds
To subdue the baleful torture our quailing spirits bare
I shred the horizons force-clad in sacred vestments

We shall devour the wretched children of Megiddo
Who shackled our souls with outrageous chains
And kept us constrained

Powered by profanity of dark limbonic sublimity
I feed from the very source of their demise
From somberness grown predominant
The principal substance is on the rise

Tremble sanctimonious servants of the fallacious
And bow to the dominion christless enthroned!

So I rend the sacred veil of time
And call the ancient aeons: "Awake!"
Long lost and forgotten ages rise again from the
primordial spawn
May the substantial shadowrealm accede to a throne!

Unfurl thyself sunless dawn
Like a fiery helix of thorns!

Beneath the seething nightskies' magnificence

abstract

Through the harmony and order of chaos I increase
their bane

As the obscure refulgence of Nihil embraces their
hearts

To never let their hourglass be inverted again

... never again
