Verse 1

I used to believe in the simple things
Like a child plays on a summer day
I believed so much in you and me
But all my faith couldn't make you stay

Pre-Chorus

With my hopes in your hand you drove away in the rain
All you left was this pain

Chorus

I wanna believe again
Without you I'm alone
So weave your wool over my eyes
And come back home
Your smell on my pillow
I hear your whisper with the wind
So take me back before all this
I wanna believe again
I wanna believe again

Verse 2

Guess I might have taken you for granted
And let the little things slip away
With no tears falling down your face
Goodbye was all you had to say

Pre-Chorus

Chorus

Bridge

I suppose I saw what I wanted to see
Wanna unlearn what I know let me be deceived

Chorus
