When you look in the mirror you don't like what you
see
Guilt and disappointment drag you down you're not
free
This isn't who you wanted be no
Ooh you wanna fly away
ooh back to yesterday

Your heart is wrapped in all the wrong that you've
done
All fingers point at you there's nowhere to run
The end of your life has begun

Ooh you wanna fly away
Ooh back to yesterday

See yourself the way I do, I'm more than able pull you
through tonight I can change your life
there is still some good in you and I promise that's is
true, won't you let me show you tonight the good in
you

Can't you see it, can't you feel it, don't you want it,
(my baby x 4)

See yourself the way I do, I'm more than able pull you
through tonight I can change your life
there is still some good in you and I promise that's is
true, won't you let me show you tonight the good in
you
