

Anika Moa "Blame It On The Rain"

Visit "[Blame It On The Rain](#)" on MotoLyrics.com

You want your way
Talk at me today
I don't care
I don't want to fight
With you tonight
I'm done
I need something to hear
I need something to see
From you
Well I am black
A motor gone
To the dumps
You look so tired
Like a little kid
In my hair
I won't be fooled
Not from you
I don't care

Blame it on the rain
Put your problems to the ground
We spend too much time
Running from each other
Oh I need some understanding from you
I need some understanding from you

Well I can't sleep
My mind's on repeat
It's too tough
I'm wasting away
but not in my size
It's too tough
I won't look down
Coz I feel too proud
To look down

Blame it on the rain
Put your problems to the ground
We spend too much time
Running from each other
Oh I need some understanding from you

I need some understanding from you

Blame it on me
Give you something to do
Don't blame it on yourself
I wouldn't do that to you
Oh I need some understanding from you
I need some understanding from you

Oh can't you see
What your doing to me
It won't do
I won't be scared
I'll sleep when I'm dead
I'm too young
I feel too tired
To watch you cry
There's no time

Blame it on the rain
Put your problems to the ground
We spend too much time
Running from each other
Oh I need some understanding from you
I need some understanding from you

Blame it on me
Give you something to do
Don't blame it on yourself
I wouldn't do that to you
Oh I need some understanding from you
I need some understanding from you

Blame it on me
Blame it on me
