Sometimes sad times
Surrender my soul
Fly away through the sky
Abandoned proposal

I don't know you, no
Cover the full view, yeah
Oh-oh-yeah

[Chorus]
And I'll say goodbye (I'll say goodbye)
With no reason why (no reason why)
I'm colder than life and it's hurting inside
No one can say (no one can say)
That I went away (I went away)
Without a confrontation, be safer to say
I'm heading on my way

I remember a time
When nothing was beautiful
Separated, confused mind
My life is still beautiful

With good in my head
To help me on my way
I know if I tried I could stand up and say

Ooh... huh...

And I'll say goodbye (I'll say goodbye)
With no reason why (no reason why)
I'm colder than life and it's hurting inside
No one can say (no one can say)
That I went away (I went away)
Without a confrontation, be safer to say
I'm heading on my way

I opened my eyes that exposed to me
Believed I could fly far away
I-yi-yi...

With good in my head
To help me on my way
I know if I tried I could stand up and say
It's just another ordinary day

Ah-ya...
Oh-yo, oh-yo, oh-yo
Woah-yo, woah-yo, hoo...

With good in my head
With good in my head
With good in my head
With good in my head woah-yo...

Oh, oh, oh, oh
