I live in a land of hot water  
I live in a land of smiles  
I live in a land of perfect sunsets  
This land I live lies in this land

But what about this thing we wrote this thing we wrote  
we made  
The cost of life the human toll the cost of human lives  
that we betrayed

I live in a subtle differences  
So I can smoke my pipe on my estate  
Don't worry brother I'll get you of your cell  
Your future meets your pride that's all that remains

But what about this thing we wrote this thing we wrote  
we made  
The cost of life the human toll the cost of human lives  
that we betrayed

I live in this land you frown upon  
I live in this land of hot sand  
I live in this land of wrong  
This land I live lies in this land  
This land I live lies in this land

But what about this thing we wrote this thing we wrote  
we made  
The cost of life the human toll the cost of human lives  
that we betrayed
