### "You're The Light"

Visit "[You're The Light](#)" on MotoLyrics.com

You taught me a lot today  
And I realise our friendship is good  
You took the trouble to hear me  
And I owe you a favour, times ten

You're the light my friend, just sit right here  
And hold me tonight, and I'll treat you right, my dear

You have a good way with words  
My problems are nothing to you, you sort them through  
I'm bigger, I've learned from you your patience  
And I'll pass my patience onto my family

You're the light my friend, just sit right here  
And hold me tonight, and I'll treat you right, my dear

You're the light my friend, just sit right here  
And hold me tonight, and I'll treat you right, my dear
