Hey girl, this leaf I brought for you was  
Ordinary (?)  
Set for sailing, goodbye oceans

Hey girl, I brought your lead kazoo to  
Make sweet music in our garden  
The smallest chorus would applaud you

Tiptoe away so you don't hear me  
I'm pearl white  
(?) come inside with me

Hey girl, here's an ancient jigsaw puzzle  
With dragons and mountains  
And two fish are now near a river

Hey girl, lastly is your lover's picture  
Courtesy of lyricshall.com  
I knew that you'd want to see him  
He told me that you are golden

I brought the lunch so I might eat with you  
I sent milk with cookies when I

Find metal from the sky  
Came falling where I died  
And crushed all of my bones  
I'm living

Cement came pouring down  
My head was stuck in mounds that  
Would run down my mouth  
Well my face is covered now

(?)  
Through my (?)  
They're telling me now  
Let it go  
Come on play  
Meet the light child
