"#1"

[Noah:] Mine I want.

I caught you when your line got disconnected trouble.
Respect the hive, it seems like days since you ejected.
Your mom and I will dance you through your bad
weather.
Young love is fine, just please respect the candles as
they line.

Now Son!

[Noah:] I won't waste time, I won't waste mine

I know there will be times, you wonder why it can't stay
simple
Your mom and I.
To pet your head and dress your lettuce.
Don't work all night and split your hair and sleep on
numbers.
Young love is bright.
Just please respect the candles in a line.

Now Son!

[Noah (live version):] I won't let you get through my
head, I won't let you get to my head.
