I need a drink of water  
I think I'm dying of thirst  
The court's been called to order  
The judge is gonna do the worst

Lend me an ear  
I got a story to tell  
I been running so long  
My feets is starting to swell  
At two past twelve the switch is gonna be thrown  
Another one dies  
In the killing zone

I need a leg to stand on  
I think I'm falling apart  
I need a friend to rely on  
I put on too many miles

Lend me an ear  
I got a story to tell  
I been running so long  
My feets is starting to swell  
At two past twelve the switch is gonna be thrown  
Another one dies  
In the killing zone  
Can't wait for the change of season  
It doesn't make any sense  
I been trying to find a reason  
The ends don't justify the means

Lend me an ear  
I got a story to tell  
I been running so long  
My feets is starting to swell  
At two past twelve the switch is gonna be thrown  
Another one dies  
In the killing zone
