Hey, this is heaven on earth  
And it's riding to you  
Heaven on earth  
We're inviting you to

Come to the station  
To meet the sensation  
Eight o'clock tonight

We'll sing you out of your head  
And give you the best evening  
You've ever had  
And even more 'cause you better do believe

The boys in the band show  
Who'll give us a hand then  
Play you things you will like

These chicks are out of sight  
Singing the songs for you  
They'll give you dynamite  
Doin' the dance they do, they sure do

You should hear these guys when they are playing the  
blues  
Rhythms and the chants will beat you of your shoes

This is heaven on earth  
And it's coming to you  
Heaven on earth  
We're inviting you to

Come to the station

Singing the songs for you  
They'll give you dynamite  
Doin' the dance they do, they sure do (Hahaha)
