Until today I felt kind a happy  
Nothing special but I was happy  
Just one look further inside yourself and you will see  
what I wanna say

Though I know it's easy to tell you  
And besides I know I don't have to  
I found myself a song to sing you, to be sure you're  
feeling the same  
Never in my life I felt the feeling (I never felt somebody  
so near)  
I felt somebody so near  
Things that my home town would never whisper in my  
ear (My town would never whisper in my ear)  
You know until today I felt kind a happy  
Nothing special but I was happy  
Just one look further inside yourself and you will see  
what I wanna say

Never in my life I felt the feeling (I never felt somebody  
so near)  
I felt somebody so near  
Things that my home town would never whisper in my  
ear (My town would never whisper in my ear)

It's been with us, all these years but I could only see it  
through my years  
There ain't no need for you to stay to feel me within you  
every day

And then I fell back to where I was happy (And then you  
fell back to where you were happy)  
Nothing special but I was happy (Nothing special but  
you were happy)  
Until you have made me find myself (Until I made you  
find yourself) and see the alternative way
