It all began with a tragedy
When the guns killed my company
My battle against them was a history
And on the magazines and books my pictures you can
see
No more than a hundred thousand dollars bucks was
wasted
My financier and my private secretary were busted
Forever I'll sing this song but not a tear I will she'd
I will follow the advices that my mama said

Yeah!
And it's the world we face
The human race
Is completely different now
But still they won't believe
What history
Had told us about
Since the war was over
We all got together
Again

Grandma told a story about a soldier
And that the soldier fell in love with her
She said she got his every letter burned
In case my great grand daddy saw those letters
I asked my mama 'bout the stories of grandmother
She didn't give even a little teensy bit of answer
I tried to find the answers myself I couldn't get past her
And soon I found out that that soldier was my
grandfather

Yeah!
And it's the world we face
The human race
Is completely different now
But still they won't believe
What history
Had told us about
Since the war was over
We all got together
Again

(Instrumental)

Yeah!
And it's the world we face
The human race
Is completely different now
But still they won't believe
What history
Had told us about
Since the war was over
We all got together
Again

And again and again and again and again and
Again!
