I know what you want  
Give just a second of your time  
One glide and you're mine  
Bump and grind, slip and slide  
Disco lights, boy you will be chasing me  
Oh, can't you see  
I will break it down for you  
There's so much going on  
And you're cute

Let me be like liquid on your body  
Like a chill running down your spine  
Bou, you don't wanna get me naughty  
Cause I can handle you just fine  
I'll burn you up and start this party  
I sneak behind and knock you out  
I'll be like liquid on your body  
I'll show you what it's all about

I take what I need  
Gotta give me what I want  
Seriously take the lead  
Come violate my privacy  
Feels like it's all about to go off in there  
First class, oh dear  
I will break it down for you  
There's so much going on  
And you're cute

Let me be like liquid on your body....

So here's the deal  
You make me feel like huge frustration  
Now why don't we  
Cause all we need is salvation

Let me be like liquid on your body.....
