I've cried all the tears I can cry
You're still the one on my mind
I've tried every cure I could find
Tried so hard to make it right

You still say that you gon' leave
Just wasting your time with me
I wish I could make you see
It's not too late to fix this

Forget what we had, the fights in the past
We'll find a way to make it last
I believe in you and me boy

Don't give up on me, we can work it out
I won't give up on you, baby without a doubt
I believe we can turn it around
I know, we can work it out

One thing I would like you to know
Our love needs a second chance
So why don't we just take it slow
'Cos this ain't a quick romance

Look right into my eyes
And tell me that this ain't right
Let's just chill and take our time
There's no need to rush things

Forget what we had, the fights in the past
We'll find a way to make it last
I believe in you and me boy

Don't give up on me, we can work it out...

We can work it out, work it out
Say it with me baby

We can work it out, work it out
Say it with me baby
We can work it out, work it out
Say it with me baby

Don't give up on me, we can work it out...
