What can I say?
I've got no room to complain
Every mistake I made was out, okay

But you're asking me questions
Making suggestions
Telling me how to do what I do best
Considering we don't play requests
It's nice to see you're taking some interest

Things are playing on my mind
I can't wait to leave behind
This small place

Walking crisis
Make sure everyone knows your pain
Keep a surprise not your private lives
To make sure we're all entertained

And it's a shame that shit goes wrong
But it happens to the rest of us
Considering we don't play requests
It's nice to see you're taking some interest

Things are playing on my mind
I'll be here till closing time
I can't wait to leave behind
This small place

Drama, go team, go team, go team, go
Drama, go team, go team, go team, go
Drama, go team, go team, go team, go
Drama, go team, go team, go team, go

Things are playing on my mind
I'll be here till closing time
I can't wait to leave behind
This small place, this small place
