Forever lost in 90 days  
From early March till late in May  
Then I pulled out in a day  
To catch my breath some place far away

All to say farewell for now  
No one brings you down like I  
All to say farewell for now  
No one brings you down like I

Tomorrow morning set me free  
For many nights you'll never sleep  
When I'm far from reaching out of sight  
Enough to get me on my high tonight

All to say farewell for now  
No one brings you down like I  
All to say farewell for now  
No one brings you down like I

Forever lost in 90 days  
From early March till late in May  
Farewell for now, farewell for now, farewell...

All to say no one brings you down like I  
All to say farewell for now  
No one brings you down like I do
