Call me, I'm feeling so lonely, I'm lost without you  
Call me, all I'm asking is to hold me, just one more time

Sleepless nights, with sweating agony  
Thinking how it all went wrong for me,  
Baby please, my life depends on you,  
There's one else, I'm still in love with you

Call me, I'm feeling so lonely, I'm lost without you  
Call me, all I'm asking is to hold me, just one more time  
Please call me, I'm feeling so lonely,  
I need to hear your voice, call me all I'm asking is to  
Give me, one last chance

Cause I know, I'm nothing without you  
I know, you're all that matters  
I know, you're the only one baby  
I know, don't let me down

Playing our cds, going through our photographs,  
Its breaking my heart, baby what's wrong with us,  
Its half past three, and I can't sleep tonight,  
I'm thinking of you, just like I did last night

Call me, I'm feeling so lonely, I'm lost without you  
Call me, all I'm asking is to hold me, just one more time  
Please call me, I'm feeling so lonely,  
I need to hear your voice, call me all I'm asking is to  
Give me, one last chance

Cause I know, I'm nothing without you  
I know, you're all that matters  
I know, you're the only one baby  
I know, don't let me down
