"Eat Me Alive"

Don't be angry, don't be cross
If you don't see me it's my loss
I just need some space to breathe
Space to think, some space for me

What's this gonna do eat me alive
I'll break myself in two just to survive
Simple things should be so simple

Temporary solitude
Might just be so misconstrued
I just need some space to breathe
Space to think, some space for me

What's this gonna do eat me alive
I'll break myself in two just to survive
Simple things should be so simple

What's this gonna do eat me alive
I'll break myself in two just to survive
Simple things should be so simple
