Don't make me cry  
Please don't say goodbye  
Let's both pretend everything's alright  
Give me your lips, baby hold me tight  
Say you will stay, always by my side  
Don't say you have to go, I don't wanna know

I wanna love you like there's no tomorrow  
Let's make this night last the whole life ahead  
I wanna love you like there's no tomorrow  
Ela moro mou kai pes sagapo

Set your heart free, love has no regrets  
Ride every moment as far as it gets  
Give me your lips, baby hold me tight  
Say you will stay, always by my side  
Don't say you have to go, I don't wanna know

I wanna love you like there's no tomorrow  
Let's make this night last the whole life ahead  
I wanna love you like there's no tomorrow  
Ela moro mou kai pes sagapo

The end of the world
