"Supernatural Love"

Visit "[Supernatural Love](#)" on MotoLyrics.com

There's a feelin' in the atmosphere
'bout a milion miles away from here
If we energize and free our minds
We can break the laws of space and time

And it's coming down to planet earth
From around the universe

Supernatural love
It never stopos,it never stops
Do you feel it comin'
Supernatural love
It goes beyond the physical
Supernatural love

I can see our future in the stars
Now venus is in line with mars
Do you see what I see
This is love to infinity

And it's coming down to planet earth
Right across the universe

Chorus
