You used to be  
The brightest thing I ever saw  
And yeah, you  
You taught me who I could be  
That I was strong

And now you seem so different  
Confused, so distant  
What I gotta do to show you  
Remind you of the girl that I once knew

[Chorus]  
When you're thinking that you've got no one  
Feeling like it's all too much  
When all you wanna do is run  
Hold on  
You're not the person who you wanna be  
Feeling like it's hard to breathe  
You can change everything  
Just hold on

Time always heals  
Although it feels like it won't end  
So please  
Trust me when I say to you  
Your heart will mend

And now I seem so different  
I'm confused, so distant  
What I gotta do to show you  
Remind you of the girl that I once knew

[Chorus]  
When you're thinking that you've got no one  
Feeling like it's all too much  
When all you wanna do is run  
Hold on  
You're not the person who you wanna be  
Feeling like it's hard to breathe  
You can change everything  
Just hold on

[Chorus]  
When you're thinking that you've got no one  
Feeling like it's all too much  
When all you wanna do is run  
Just hold on  
You're not the person who you wanna be  
Feeling like it's hard to breathe  
You can change everything  
Just hold on

[Instrumental]

Hold on  
You're not the person who you wanna be  
Feeling like it's hard to breathe  
You can change everything  
Just hold on

[Chorus]  
When you're thinking that you've got no one  
Feeling like it's all too much  
When all you wanna do is run  
Hold on  
You're not the person who you wanna be  
Feeling like it's hard to breathe  
You can change everything  
Just hold on

[Chorus]  
When you're thinking that you've got no one (Got no  
one)  
Feeling like it's all too much  
When all you wanna do is run  
Hold on (Hold on)  
You're not the person who you wanna be (No, no)  
Feeling like it's hard to breathe  
You can change everything  
Just hold on (Oh)
