Steal away

Steal away

[Verse #1]

Sometimes I wish that I could go far away

To a place no one can find me, I just need a break

I would love to take you with me but right now I'm in
space

Just to make sure my decisions were not a mistake

Oh, baby, you left me, I know what to do

So I'm asking for your patience while I tighten the
screws, oh

[Chorus]

Can we do this another day

There's so much on my plate

I really wanna (Steal away)

Just when I think I made it through

There's something else to do

I really need to (Steal away)

Feels like I'm getting nowhere

And life's so unfair

That's why I gotta (Steal away)

[Verse #2]

So much confusion on my right and my left

Got me doing so much spinning, I'm losing my breath

Don't you think I should be first when I've given my life

Just like money that you borrow and you never get back

Oh, lazy, do nothing, that's just what I need

A vacation from everyone, from me being me, oh

[Chorus]

Can we do this another day

There's so much on my plate

I really wanna (Steal away)

Just when I think I made it through

There's something else to do

I really need to (Steal away)

Feels like I'm getting nowhere

And life's so unfair
That's why I gotta (Steal away)

[Breakdown]
(Ooh, wish I could just)
I wish I could just
(Ooh, wish I could just)
I wish I could just
(Ooh, wish I could just)
Oh, wish I could just steal away

[Chorus]
Can we do this another day (Another day, baby)
There's so much on my plate
I really wanna (Steal away) (There's so much)
Just when I think I made it through (I made it through)
There's something else to do
I really need to (Steal away)
Feels like I'm getting nowhere (Nowhere)
And life's so unfair
That's why I gotta (Steal away) (Steal away)

[Backing Vocals]
Steal away
Steal away
Steal away
Steal away
