Oh, put your swords away, I'm already down
The higher we both climb, the further we fall.

And now were under looking up into the floor
And burn each other though we're dying for more

We're stuck on this disfunction
We love it to our death
We celebrate distruction by lighting up this bed...

You can take your love away but don't you ever leave
alone
Burn the ghosts we've carried home
Come on touch me show me you're imperfect too
These broken lights they shine on us tonight

We don't talk much when there's so much to say
We don't listen but we try anyway
My stomach feels sick bitter and open
Reveries of helplessness have left me all but hope and

We strip each others beauty and we push it to the end
We face each other smiling and leave it all unsaid

[Chorus]

We kiss till we bleed
(We Feel So much it's killing us)
We fight till were free
(And he threatens to leave but wont let me)
We cry till we see
(Infatuations Break Us down)
We're healing and free.

We dance inside this tragedy.
We dance inside this tragedy.

You can take your love away but don't you ever leave
alone
Burn the ghosts we've carried home
Come on touch me show me you're imperfect too
These broken lights, they shine on us tonight

Ohhh ohhh ohhh
Don't leave me alone, aloneee
Come on touch me, show me your imperfect too
These broken lights, they shine on us,

Tonight.
