I wanted this I wanted you  
I wanted it to last but you fell through  
But each point don't you see  
That here on the west we follow our dreams,  
Why don't I know you anymore  
The color of your lips are red and I swear I never wear  
lipstick  
Ohh my god I drank too much,  
Laughing while I'm crying so you let them know your  
dying,

Dying, dying to break out dying to get that skin out,  
Through the window of the abyss, click my heels but I  
am stuck here,  
I'm pledging and this is how, I'm swearing to you now,  
The whole world will hear me shout out,

This is the last time, this is the last line,  
Sunset to sunrise morning to midnight  
This is my goodbye  
Blow out the candle, The bottle is dry  
And if pages learned to think  
You're not even worth my black ink revenge  
I guarantee guarantee you'll miss me  
I can't stomach this  
I think I'm going to be sick  
My heart's made of wick, and you start the fire out of it  
With the kerosene, Shocked my feet  
She smiled at me and closed the door  
But not to sleep

This isn't making any sense  
I was worse the night before it  
The smell of your sheets is the remnants of the  
Breaking of my heart  
You're breaking it so hard  
The whole world will hear me shout out

This is the last time, this is the last line,  
Sunset to sunrise morning to midnight  
This is my goodbye  
Blow out the candle

The bottle is dry  
And if pages learned to think  
You're not even worth my black ink revenge

I guarantee guarantee you'll miss me  
And so I'm writing you out of my dreams  
You'll miss me I swear when I leave  
Yeah I'm writing you out of my dreams  
You'll miss me I swear  
Cuz I'm writing you out, I'm crossing my T's  
I want back the necklace I said you could keep  
You miscomprehended and I scorn you till death  
My words are as strong as my last gasp of breathe  
Leave nothing behind not a trace or a crumb  
I urge you to walk out, how painful this was

So I'm writing you out of my dreams,  
You'll miss me I swear when I  
This is the last time, this is the last line,  
Sunset to sunrise morning to midnight  
This is my goodbye  
Blow out the candle  
The bottle is dry  
And if pages learned to think (x2)  
You're not even worth my black ink revenge
