The door slams I wake up  
Another illusion I have made of this  
I cry I swept away every tear that I've cried  
And I swear this was your choice  
So save me from falling with the sound of your voice

Are you lonely? Do you hold back?  
Will the road ahead keep you on track?  
I know you made what real for  
but I can't help to die just a little bit more

I'll miss your every moment  
I can't hold it  
And I swear  
I'll miss your perfect charming selfishness  
I can't say goodbye, say goodbye

So here goes my last chance  
Of an hopeless romantic and I don't understand  
Why you don't, why you wanna show  
Your dangerously enemy and it's tragic so pathetic  
I'm in love with you and you just don't get it

So when you lay your head at night do you think of me?  
Do you think it's right to leave me here to kick myself  
to hate myself for all that I felt?

I'll miss your every moment  
I can't hold it  
And I swear  
I'll miss your perfect charming selfishness  
I can't say goodbye, say goodbye

So I sit here finding a way  
Surrounded but still lonely  
Your absence here doesn't help, it doesn't help  
Cause every time I look to you  
A mild depression comes screaming through  
I don't know myself, we don't know ourselves

So make me this promise, yeah?  
Say it with an object tone

Emotion feeling, can't stop spinning  
Just keep breathing, say you need me

Iâ'll miss your every moment  
I can't hold it  
And I swear  
I'll miss your perfect charming selfishness  
I can't watch you go  
why'd you go?
