

Automatic Loveletter "Old Movie"

Visit "[Old Movie](#)" on MotoLyrics.com

If life was a movie and I was song
You'd be Gene Kelly and I'd be in love
Our roles would consist of paramount lines
Like "I love you forever and always be mine"
We would be happy singing in the rain
and our love story was classic in every way
Perfect couple in an old movie
If moves were a dance hand in hand we would be
Tapping sporadically throughout the streets
And I'd sing you a song the way Judy does

In a picture of parades and Ferris wheels will go around
We would be happy singing in the rain
and our love story was classic in every way
Perfect couple in an old movie
In our black and white lives our love would never die
and one day see that colored sky
It all starts with a roar and ends in your eyes
In our black and white lives our love would never die
We would be happy singing in the rain
and our love story was classic in every way
Perfect couple...Perfect couple...Perfect couple in an old
movie...Perfect couple in an old movie
