I was your fire once  
you thought of me as your one true love  
i got so mad  
said things that later I would regret and regret and  
regret  
holding onto my chest and pounding till it turns purple  
a breaking bow and the sound of a scream muffled by  
pillows  
so dont so long  
and dont farewell  
hear me out now i've just begun to say

Parker  
do you remember  
how i carried your heart  
and i carried it far  
and i know  
that theres no one to blame  
its a sure given shame of my own  
that you dont..  
remember

sworn off blue lips  
kiss them warm  
with love comes deep dark red  
and paper cuts  
from letters i re-write explaining how to fall in love  
well pictures inspire and songs never tire  
and there's always clouds to float upon  
saving me best for last  
down for keeps up for grabs

we'll play stop and go  
but it feels just like freeze tag  
so ill see you right  
applaud and encore  
ill be braver just you wait here till i say

Parker  
do you remember  
how i carried your heart  
and i carried it far

and i know  
that theres no one to blame  
its a sure shame of my own

im naked once so dont think twice  
hold on  
its hard enough to bite my shy  
hold on  
hold on  
hold tight

Parker  
do you remember  
how i carried your heart  
and i carried it far  
Parker  
do you remember  
how i carried your heart  
and i carried it far  
and i know  
that theres no one to blame  
its a sure given shame of my own  
of my own  
of my own  
its a sure shame of my own  
that you dont that you wont remember
