Here's a story I hope you'll like,
It's the one about the girl riding on her bike
I know it's a tired old tale but it still rings true
She could never be rude or unkind
But a sad song played on the back of her mind ohh
Can someone show me a different day?
To make away

Take me out of the woods great big world
You know I'm wanting for you
You know I'm wanting for you

They tell me goodies make the woods go round
And every day they fix the tea to wash'em down
You know if you spin your wheels everything's ok
There's a girl who's been on my mind
She was never one who cared to color in the lines ohh
Did you know that this looks a lot like me
Ohh

Take me out of the woods great big world
You know I'm wanting for you
You know I'm wanting for you
Wanting for you
Wanting for you
