Break it down

This is the year to make money and be chilling  
This is the year to make money and be chilling

Break it down

This is the year to make money and be ch-ch-chilling  
This is the year to make money and be chilling

Sort of break it down like this

Yes, as we pass  
Through the interludes  
The J A Z Z session, continues  
One, two, rock, lyrics  
I get rough make raps collide rough, they stick  
together  
Like Run-D.M.C. pumping up, 'Tougher Than Leather'  
Vertical sideways, earthquakes'll shake them highways  
Technics spin rotate, the red lights illustrate

Like groupies on Shaquille, so swift like Ron O'Neal  
While Freddie remains dead  
With speakers pumping in his head  
More wild than Gorefest, growl
