"Friends"

[Raven:]

Oh, yeah, welcome to the life of Raven and Anneliese
You know I got your back from now forever I'm your girl
And you can count on me on that you know you can be
sure
We'll always be friend it's true
I was always there for you
I would never turn my back on us it's true

[Both:]

Tight for life were friends that's right
I'm here for you whenever you need

'Cause you got your friends you can count on always
there for you
Yeah, you got your friends to rely on to get you through
No matter what a friend you can call on your girl it's
true
'Cause you got your friends, friends, friends like I got
you

[Anneliese:]

We've got our problems but we find a way to work it out
Never let anyone between us nothings gonna bring us
down
Everything I'm gonna do I will always call on you
Whatever happens I know that you'll pull through
You can trust in me no doubt no need to worry 'bout a
thing at all
It's true, oh, oh

[Both:]

'Cause you got your friends you can count on always
there for you
Yeah, you got your friends to rely on to get you through
No matter what a friend you can call on your girl it's
true
'Cause you got your friends, friends, friends like I got
you

[Raven:]

And if there's anything you want I got you
Anything you need (all you gotta do is ask)

[Both:]

Both of us together
yeah, were unstoppable
Just you wait and see

[Anneliese:]

What's good Rae? You know you're my girl right?

[Raven:]

Forsho Anneliese anything you need ma

[Anneliese:]

Whoa Alright alright OK I guess were friend for life then

[Both:]

'Cause you got your friends you can count on always
there for you
Yeah, you got your friends to rely on to get you through
No matter what a friend you can call on your girl it's
true
'Cause you got your friends, friends, friends like I got
you
'Cause you got your friends you can count on always
there for you
Yeah, you got your friends to rely on to get you through
No matter what a friend you can call on your girl it's
true
'Cause you got your friends, friends, friends like I got
you
'Cause you got your friends you can count on always
there for you
Yeah, you got your friends to rely on to get you through
No matter what a friend you can call on your girl it's
true
'Cause you got your friends, friends, friends like I got
you
