Love comes like a miracle...

Love comes to the rescue - whenever you need it  
Love comes like a miracle so you better believe  
It's true (it's true) - when I look deep inside of you  
Just when I think I cannot find  
Some peace of mind...

Love comes to the rescue - whenever you need it  
Love comes like a miracle so you better believe  
It's true (true) - when I'm lost for words to explain  
And my heart is filled with the kind of pain  
I just don't need  
Oh...

Love comes to the rescue (to the rescue) - whenever  
you need it  
Love (don't you know, don't you know that) comes like a  
miracle (like a miracle)...

[Instrumental break]

Just when I think I can't find some peace of mind...  
Love - love comes...  
Love comes...  
Let it in...
