"One More Arrow"

Visit "[One More Arrow](#)" on MotoLyrics.com

Break the ice you can help me understand
Take the night into your own hands
Burn the flame ignite the love we used to know
Learn to change we've got to let the past go
Start to heal cause we don't have to fall
Hearts that feel can have it all
[Chorus:]
Take one step closer let love start over
Shoot one more arrow through my heart
We'll come back stronger and hold on longer
Shoot one more arrow through my heart
Unashamed it can't be wrong to try again
No one's to blame but just a quiet end
Smile for me cause heaven's not so far away
I'll believe that this is where you should stay
Start to heal cause we don't have to part
Hearts that feel can have it all
[Chorus]
Start to heal cause we don't have to part
Hearts that feel can have it all
[Chorus 2x]
