Show me the way you move,
I cant get enough of you,
You leave me gasping for more air.
Take My advice: and don't change a thing.
Tell me if it would be OK if I took away the gravity that
keeps us here!

Cuz I got some big ideas,
and four wheels of mine that will set our dreams in
motion.

Tell me just how you feel
and where this is going.
She said I got something to say to you.
I need you close to me and I will be yours
it seems,
Just close your eyes and hold my hand.

Close your eyes now and hold my hand,
If a promise is a promise,
I have no intention of breaking the ones we have,
Just hold me close and don't let me go.

The last time I checked I was staring at your wall,
and singing out your name.

Tell me just how you feel
and where this is going.
She said I got something to say to you.
I need you close to me and I will be yours
it seems,
Just close your eyes and hold my hand.

Hold my Hand

I didn't see this at first,
but your a girl that caught me by surprise,
And you could tell me anything you wanted,
And I could see it in your eyes:
You couldn't wait till we were alone,
To pass the time together.

Tell me just how you feel
and where this is going.
She said I got something to say to you.
I need you close to me and I will be yours
it seems,
Just close your eyes and hold my hand.

Girl Your On My Mind All Day Long!
