We could go ahead and lose it
We could go ahead and lose it all
I refuse to say that this is just a game

I've got 10 dollars let's go to some shows
And scream the songs that everybody knows
This town will never be the same

If we could just find the time
We'll never let it pass us by
never grow up and never grow old

This could be what we've been waiting for
Everything we've wanted and so much more
These nights are silver but we'll make them gold

Up late watching cars drive by
Watching the stars pass through the sky
Wishing we had the nerve to try
To stay and never say goodbye
Up up and away we go
We'll see the city lights they glow
Don't hold back now it's almost over
Kiss me now it's almost over

I am starting to realize
That this is where I want to be
I hope we'll be here this time next year

With all of this my life feels just right
Us up here all through the night
But I'm content as long as you are near

As long as you are near
Up late watching cars drive by
Watching the stars pass through the sky
Wishing we had the nerve to try
To stay and never say goodbye
Up up and away we go
We'll see the city lights they glow
Don't hold back now it's almost over
Kiss me now it's almost over

When the waves come crashing down
We'll have used up this old town
When it's time for us to go
When its time will you please let us know
Up late watching cars drive by
Watching the stars pass through the sky
Wishing we had the nerve to try
To stay and never say goodbye
Up up and away we go
We'll see the city lights they glow
Don't hold back now it's almost over
Kiss me now it's almost over
