The Get Up Kids' cover on the Pixies tribute album
Where is my Mind?
Adrienne sings back-up vocals

Pioneer of aerodynamics (little Eiffel, little Eiffel)
They thought he was a real smart Alec (little Eiffel, little Eiffel)
He thought big and they called it a phallic (little Eiffel, little Eiffel)
They didn't know he was panoramic

Little Eiffel stands in the archway (little Eiffel, little Eiffel)
Keeping low doesn't make no sense

Sometimes people can be oh so dense
They didn't want it but he built it anyway
Little Eiffel stands in the archways (little Eiffel, little Eiffel)
Keeping low doesn't make sense
Keeping low doesn't make no sense (little Eiffel, little Eiffel)
Little Eiffel stands in the archway

Oh Alexander I see you beneath the archway of
aerodynamics x12
