

Anniversary "Radio Song"

Visit "[Radio Song](#)" on MotoLyrics.com

Released on Hot Rod Circuit's album If it's Cool with you
it's Cool with Me
Adrienne sings back up vocals

I got my ways - I got my reasons
I sit for days - got the reasons why
I like to sit around and get high risk my life away
Looks like another nervous breakdown
I can suck it in - and turn another bottle down
I'm late for the second time straight this week today

Listen to the radio with my friends sitting on the left
side
Listen to the radio with my friends sitting on the right
side

Waking up staring at the ceiling as I cling to you to stop
this feeling
I'm late for the second time straight this week today
I got my ways - I got my reasons
I can see the days - got the reasons why
I like to sit around and get high risk my life away

Listen to the radio with my friends sitting on the left
side
Listen to the radio with my friends sitting on the right
side

Listen to the radio with my friends sitting on the left
side
Listen to the radio with my friends sitting on the right
side
Listen to the radio with my friends sitting on the left
side
Listen to the radio with my friends sitting on the right
side
