Aftermath of the deathly plague  
Corpses once dormant now arise  
Wreckage in the world above  
No one sane left alive  
Experiments in the ground below  
Hidden from the rotting land  
Depravity and swarming lust  
Undead infatuation

[Chorus:]

Unholy obsession with the living dead  
Maggot filled zombies in chains  
Vile procreation with flesh hungry cadavers  
The breeding instinct deranged

Fed on the meat of the weak and the old  
Stagnant blood now flowing free  
The mating continues with psychotic abandon  
Creating a horrific breed  
Living in a dying womb  
A nightmarish creature is spawned  
Born undead in a world gone mad  
All hope for humanity gone

[Chorus]

Humans insane, horrors are bred  
Raised on decay, born undead

[Leads - Coralles/Cutler]

[Chorus]
