Blood will follow blood!

A natural excitement  
For some of us will provoke  
A thirstiness inside us  
Is awakened at it's sight  
From the mystery and feel for the bite then...

Blood will follow blood  
Death will do us part  
Life will never die  
Time can never end

Mortal lives will be damned  
All our sins will be denied  
Take our pleasure  
Take our pain  
Immortal sins can be used  
To make us live through the night then...

Blood will follow blood  
Death will do us part  
Life will never die  
Time can never end  
Evil blood... will rise

Dracul! you've started it all with your mythical  
Obsession for blood and terror  
You've terrorized enough souls for a lifetime  
Of hellraising pain, will it ever end?  
Will they ever learn that blood will follow vlad!
