Visit "[Mean World Symptom](#)" on MotoLyrics.com

Life ends now, the number on our back  
Fall down, the rising of the dark  
We have a target on our head  
Found dead, no nothing, no regrets

This is it  
We have reached the point of no return  
Mean world symptom

All hope's gone, a thing we can't deny  
Is lost, the meaning of our life  
Through time, a gentle lullaby  
Fake things, no future, no respect

This is it  
We have reached the point of no return  
Mean world symptom

Stop now  
We have to keep the circle intact  
We have to be prepared for impact  
Improved version of ourselves?  
In this mad world in terminal  
Every day is so critical  
We are getting infest  
We are failing the test
