It seems like nothing's going fine  
Stopped at the same place  
All time!  
Can't go any longer  
They pusheds me on the wall  
I'm being unproductive  
Hope this thing won't go too far

Tension rising Chais coming  
Blank sheet terrorizing

What's next?  
Sorry but I'm stuck  
I know I'm having problems  
No luck!  
Losing all my power  
Waiting to be stronger  
Meet my holy saviour  
I am having many doubts  
Cause I can't see... No way out!

Tension rising Chais coming  
Blank sheet terrorizing

No way No way out!

No way There's no way out  
This way total black-out

Stand still paralysed  
Unable to match these rhymes  
Different sound at the end of lines  
Empty spaces open wounds  
Harmonies are out of tune

Fill this virgin mind  
Who's going blind  
Will tomorrow be?  
A better day for me?  
Stuck stuck stuck stuck
