OoWee

OoWee

OoWee

You make me wanna say

You make me wanna say

I remember time stood still when I met you girl

When I met you girl, yeah

I remember every little thing, every way you twirl

Every single curl, yeah

I swear the lights got brighter when you looked at me

Looked at me, yeah

I remember thinking I'd seen a wonder of the world  
already

Hey, now that we fell in love

Baby Imma never get on up

Now that we fell in love

Baby I still can't get enough

Now that we fell in love

Baby Imma never get on up

Everytime you walk in the room

Yeah, you still got me singing

OoWee

You make me wanna say

OoWee

You make me wanna say

OoWee, yeah x2

You make me wanna say

You make me wanna say

You make me wanna say

Did you know that I'm the envy of all my friends

And all their friends? Yeah!

Did you know that it's all because I found you now?

There's no one else

Hey, now that we fell in love

Baby Imma never get on up

Now that we fell in love  
Baby I still can't get enough  
Now that we fell in love  
Baby Imma never get on up

Everytime you walk in the room  
Yeah, you still got me singing

Oowee  
You make me wanna say  
Oowee  
You make me wanna say  
Oowee, yeah x2  
You make me wanna say  
You make me wanna say  
You make me wanna say

The way you move  
The way you groove x2  
The way you do me

You make me wanna sing

Oowee  
You make me wanna say  
Oowee  
You make me wanna say  
Oowee, yeah  
You make me wanna say  
You make me wanna say  
You make me wanna say
